

Obeikan Tensile Structures

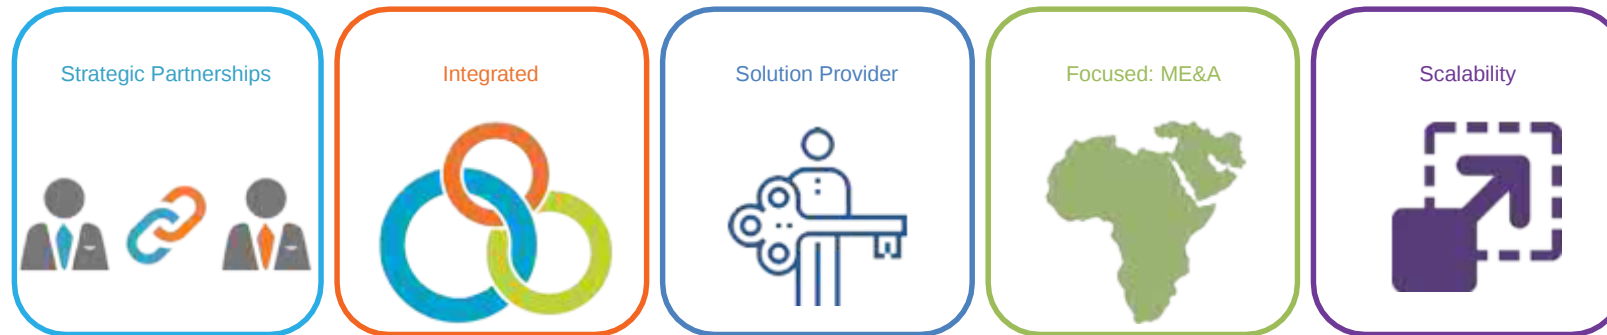

Our strategic drivers - OME

Obeikan Investment Group is a multinational leader in packaging, education and health, with annual revenue of USD \$1 billion. We're one of Saudi Arabia's 100 largest companies, with more than 3,000 employees and operations in 16 countries.

Our key success factors

Obeikan Tensile Structures

www.obeikan.com.sa

Obeikan Tensile Structures Factory (OTS) specialized in design, fabric, fabrication, steel works and installation of tensile structures in the Middle East and worldwide. The factory was found in 1998 as part of Obeikan Investment Group in Riyadh, Saudi Arabia. OTS offers total solution for tensile architectural membrane including tents, sails and shades and provide initial consultation, engineering design, calculation, evaluation, cost estimation, fabrication, material supply of PTFE & PVC, steel supply, fabrication, and installation works.

About us

www.obekan.com.sa

Our Vision

Leading in fully integrated tensile architectural structures solutions in GCC and Middle East.

Our Mission

To supply high quality tensile structures solutions in terms of customer satisfaction & service efficiency.

Our services

DESIGN

Cost Estimation, Design & Calculations

FABRICATION

Manufacturing & Material Supply

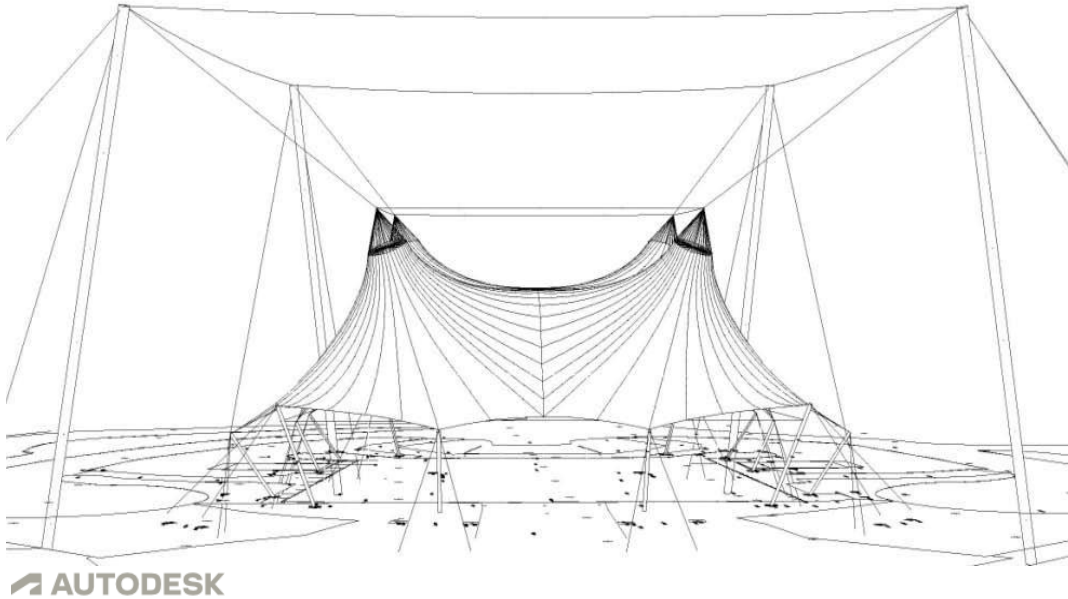

INSTALLATION

Project Management & Installation

We are committed to provide solutions and products that achieve the highest possible structural integrity, quality & safety.

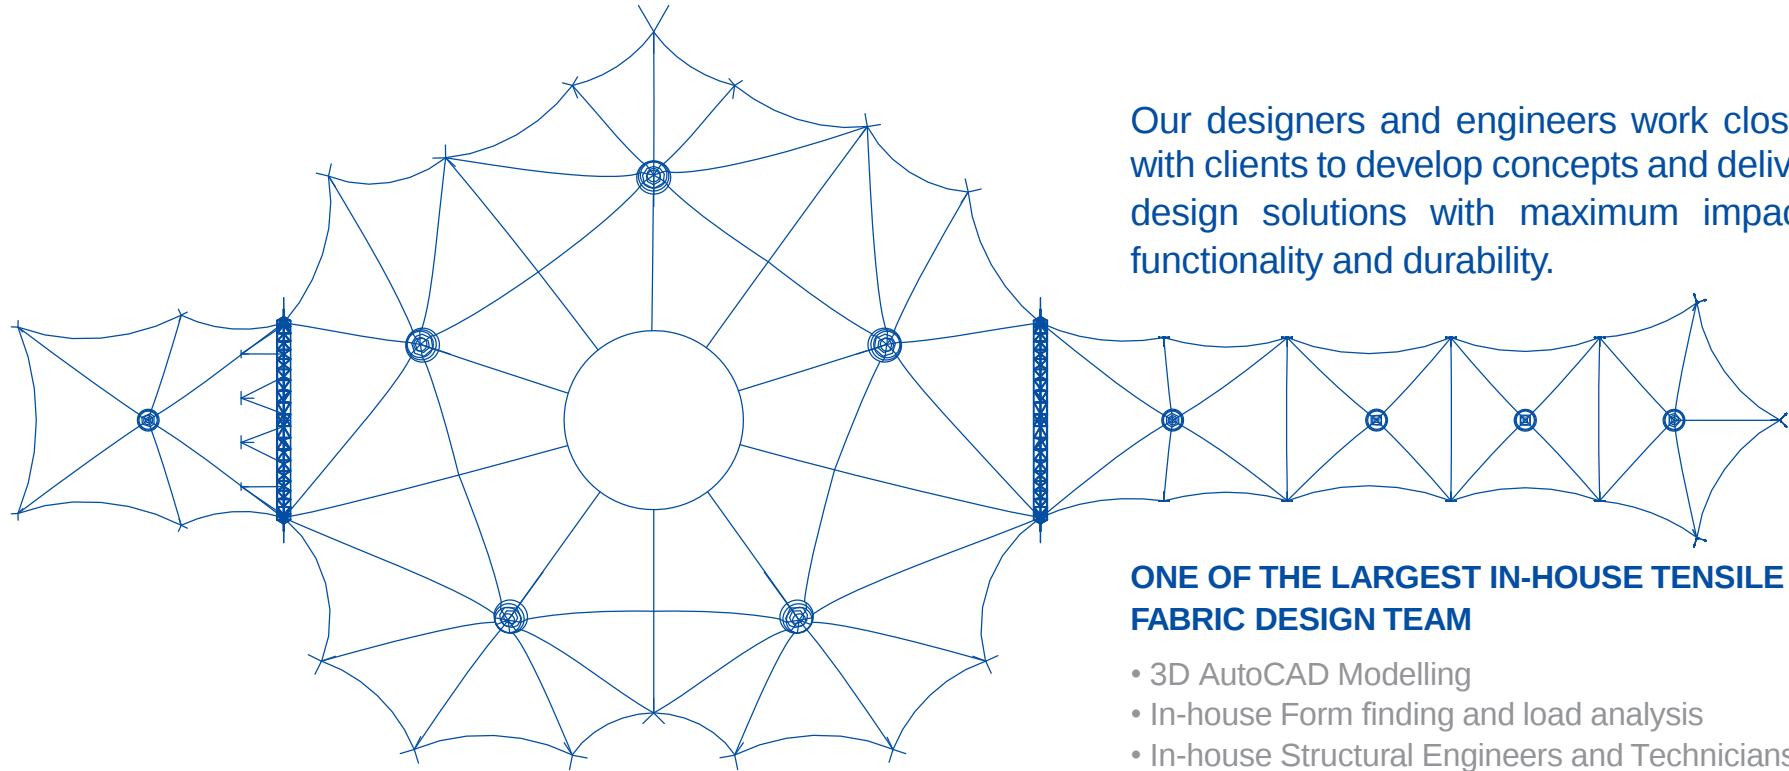

Engineering

IN-HOUSE ENGINEERING, DESIGN CAPABILITIES AND SOFTWARE

Our professional qualified Engineers capable of performing design and detailing for all types of Tensile fabric structures.

Engineering

Our designers and engineers work closely with clients to develop concepts and deliver design solutions with maximum impact, functionality and durability.

ONE OF THE LARGEST IN-HOUSE TENSILE FABRIC DESIGN TEAM

- 3D AutoCAD Modelling
- In-house Form finding and load analysis
- In-house Structural Engineers and Technicians
- In house detailing and shop drawings development

Fabrication

Fabrication of steel works of including cable pressing & fabrication of end fittings.

TENSILE STRUCTURES

OTS provide total solutions for tensile structures.

- Tensile Structures
- Custom Shade Solutions
- Architectural Car Parking
- Architectural Fabric Structures
- Sports yards and Stadiums
- Car Parking Shades
- Schools yards Cover
- Mall Covers
- Hangers and shelters
- Event tents

King Abdulaziz International Airport Project

King Abdulaziz International Airport Project

Location:
Jeddah, Saudi Arabia
Fabric Used:
PVC 1100 g/Sqm
Total Area: 89,000
